LOUISVILLE GOLD PEN MANUFACTORY. TH.HOSKINS

DAILY COURIER.

.NOVEMBER 19, 1858. Reading Matter on every page. THE HOG MARKET .- Transactions yesterday, were very limited, and no sales of logs transpired, but prices may be quoted firm at \$6 50 net, for hogs, despite the break down in Cincinnati. We hear of sales during the past day or two, of 600

hogs in Oldham county, to agents of packing

houses here, at 4% cents, gross. There is said to be but about 800 hogs remaining unsold in Oldham county-a short crop. The packers in Henderson, Ky., expect to 11,000 the year previous. This is a great falling off, and hogs in that county, Hopkins, and others, are very scarce, and command 61/2 cents. The prospects some months since, were favorable for

a large number of hogs in the State, but the cholera has reduced them very materially. We have seen letters from Western packing oints, stating that the hogs in that region are coming into market very light, the falling off in weight being estimated at from 15 to 20 per cent. Phis, however, is easily accounted for. Last seasou corn was plenty and hogs were fed till Jannary and February. This seasen corn being scarce

and high, hogs were harried in half fatted. The receipts of hogs yesterday were tolerably arge, including 360 by the mailboat; some 200 hy the Currollton packets; 2,860 by the Jeffersonville railroad, and 1,400 by the Frankfort road. The do with Douglas. He is not before them in any Jeffersonville pork house up to Wednesday evening had slaughtered 10,000 hogs, and the entire killing at all the pork houses up to last evening was over 25,000 head.

At Cincinnati yesterday, as we learn by our dispatches, the market had declined, closing in- at finding him all right in the future world so far active at \$6 25 for hogs, with heavy receipts, and make us forget ourselves as to go for indorsing \$17 for mess pork. The Auditor's returns of the him in a little ward meeting where a couple o assessment of hogs in Ohio, show an increase dozen of persons had met to appoint delegales to his year of 223,136, as compared with 1357. The a State convention, and where the business did following is from the Cincinnali Gazette of vcserday, giving the market of the day previous: The market opened buogant and excited, and a further advance was established, heavy hogs having been sold at \$0.75, and a large business was done, chiefly for present delivery. At the close, however, it was dillicult to make sales for future delivery at the quotations. The sales add up 7,000 head at \$6.40 for light, \$5.50 for those averaging 190 to 200 lbs, and \$6.60a\$6.75 for those averaging 215 to 240 lbs. Receipts large.

Tho Riehmond, Ky., Democrai, in Madison county, says that the last sale made before they went to press, that they heard of, was at \$4 50 gross, cash, and that the price was rising.

THE MINSTRELS-BILLY BIRCH'S BENEFIT. -The cold snap deterred many from going to see the minstrels last night, but they still had a fine audieuce, half of which were ladies. The miustrels were never more amusing. The programme presented several fine songs, which were well sung; the dancing by Master Charles and Ritter was uite the thing; while Birch showed he could not nly dance, and sing, and aet, as nobody else, but if called on "can use a musket." He proved it if called on "can use a musket." He proved it by manual practice with a broomstick, in the laughable extravaganza of the "Hop of Fashion," which concluded the evening's entertainment. It which coucluded the evening's entertainment. It is a rich thing, a regular take-off, and burlesques the burlesque. It will be repeated to-night, for gave them. Billy Birch's benefit, which should be a bumper.

BURGLARIOUS OPERATION .- The office of Cole & White's planing mill, on the "Point," was entered by burglars on Wednesday night, in quest of pooty. Finding nothing in the drawers, they took a small iron safe from the building, carried

an opportunity of seeing a person who was lost in the great Central America disaster by visiting Masonic Temple. Billy Birch went under on that memorable occasion, but came up and swam on the topmost wave, as he does now on the wave of public opinion.

To-night is his henefit. Personally he is clever. As a "brother bones" he cannot be excelled. He is tolerable in his vocalization. But his tastes and talents in the aquatic line are unequalled .-

"Rari nantes in gurgit vasto."

THEATER .- "Jack Sheppard," "The Young, Wheelwright," and the first act of the "Three Fast Men," were performed last night. Miss Lucille made a very good personation of the famous Jack. Reynolds took the character of Jonathan Wild, and Mr. Allen that of Blueskin. Mr. R. we believe, will remain at the theater, to supply the place of Mr. Riley, who has gone to Chicago. To-night, the Sisters take their benefit together, and make their last appearance in the "Three

Fast Men," which will be performed entire. Lost .- A morocco pocket-book, Marked "F. G. Anthony," and containing several hills of exchange on New York, was lost yesterday, either in the cars of the Louisville and Nashville rail-House. Payment on the drafts has been stopped and the finder will he rewarded by leaving them at the Galt Honse, for O. Howes, to whose order

they were made payable. DODGE'S PATENT GRATES AND STOVES .- The agent for these articles, which are advertised in this paper, has arrived in this city, and is stopping at the Galt House. He will call upon our citizens generally, and is prepared to put up the articles amed. They are said to be a great improvement, ourning much less fuel, and in other respects are represented very superior. He may also be seen

RELEASED .- Sanford, who reported that he had ost two or three thousand dollars at the National Theater, Cincinnati, was arrested by his creditors. who believed him to be prevaricating, and held a few hours in jail until he made a mortgage and otherwise secured them. He still asserts that he was robbed, but the officers and others doubt him.

SALE OF THE LEXINGTON AND DANFILLE RAIL-ROAD .- We learn from our friend, Putnam, mail agent on the Louisville and Lexington railroad, that the Lexington and Danville railroad, with all its appurtenances, franchises, etc., was sold in Lexington, yesterday, for \$125,000.

That Douglas Resolution.

We publish this morning the proceedings of emocratic meetings, held recently in the counies of Crittenden, Jessamine, l'ulaski, Adaire and Oldham. In each of these five counties, i will be seen, that the administration of President Buchanan is indorsed in plain but unmistakable terms. And such is the sentiment of the great Democratic party in Kentucky.

We also publish the proceedings of a meeting, held night before last in the first district of this ci'y, composed of the First and Second Wards. This meeting likewise indorsed the President's administration, but adopted a resolution intended to weaken the force of that indorsement. This was the resolution in favor of Hon Stephen A. slanghter but 4,000 hogs this season, against Douglas-a resolution full of mischief, and productive of no good-a resolution out of place, and calculated to injure the great Democratic cause instead of helping it. It has been suggested that if it is the policy of

our ward meetings to indorse Donglas when they assemble to appoint delegates to the 8th of January convention, they should also indorse Crittenden, and Marshall, and Underwood, who stood with Douglas upon the question that separated him from his party. We do not think so. It is hetter, in our opinion, not to indorse either of them. Let us wait until Douglas gets back to the Senate and see what he will do. It will be time enough to raise a hurrah for him when we learn whether his future course is to be for us or against

At present our county meetings have nothing t proper capacity, while the I'resident, as the head of the party, is properly before them. When Douglas' time comes, if he shall be found to be all right, none will raise the shout for him sooner than we. It is not possible, however, that our joy

not concern him at all. THE CHIEF OF POLICE.-Mr. Ray, Chief of Poiec, in explanation of his action towards the Washington Circuit Court, informs as that he endeavored to obtain the services of several policemen to serve the process referred to, but, "as there was no money in it," they declined. In cases similar to that about which publication has been made, the Commonwealth's Attorney and infor mant get all the money, and the State and the oilicers engaged in making the arrests, come out minus, according to Mr. Ray's account of the matter. Would it not be well, therefore, to raise secret service fund to induce our police to arrest law breakers; for, as pay seems to be the game, a rascal, who has money enough to pay his way at large, need never be arrested, unless the informan or prosecuting attorney nah him on their own

hook, to get their part of the pay. Charley Rufer, at the St. Charles, has in prospective, a rare treat for his customers. The

THURSDAY, NOV. 18 CHARGE OF WOMAN ASSAULT .- Rose Johnso took a small iron safe from the building, carried it across the street, and broke it open. There was nothing in it but the books of the concern. The rascals, disgusted at their want of enccess, lore that Bennet Jones had a hatchet, and with Rose the pages of the ledger and other books into frag-ments. They seemed to have finished the job with great deliberation; for as they couldn't ease Color White of the ledger and other books into frag-mince meat of her. ORDINANCE WARRANTS.—Several cases we called up and continued, and one against Tone ment for the lowest fine aud costs, and got off A RAILROAD ENGINE ON ITS TRAVELS-THE MOS REMARKABLE LEAP ON RECORD. - One of the most remarkable incidents which we have been called upon to record of late, occurred at the depot of

about six o'clock. It certainly has no fellow, it all its details, in railroad annals. The facts con nected with it are as follows: About litteen minutes before six o'clock, the en-ine "Washington," belonging to the Marietta and Cincinnati road, started down the track some man in charge discovered au engine of the Lit-tle Miami road backing down to the depot to the purpose of taking out the morning train fo ed from the machine. A minute after, the two
engines came together, when the impetus given to
the Marietta engines together with the lorce of
the reversed power, started it towards the depot with the velocity of a rocket. The down grade

from the track, and literally bounding from the iron rails, threatening destruction to everything that impeded its progress. Experienced judges of

the speed of railway trains, who saw this engine on its lightning travels, say that it could not have been going at a less rate than seventy-five to one hundred miles an hour! Its final bringing my shows that their calculations could not have been far out of the way.
Upon the track in the depot the morning train, already taken their aeats. On came th with the speed of a destructive whirlwind, direct y upon the track leading to the train, until with n about four or five rods of the depot, when the fortunate accidental change of a switch drove is upon the other track. Almost before the persons rear, leaped across two road tracks—oue about ten feet below the other—without touching either, and imbedded itself in a huge pile of coal in the yard of J. Cochnower! The distance leaped, from the wall of the depot to the lamp of the engine, could not have been less than seventy-five feet. All this distance, through the demolished wall of the depot, it dragged the tender, loaded with wood without breaking the couplings.—Cincinnati Ga

zette. Thursday. A Baltimore correspondent of the New York Herald gives the following description of the mur-

accused of the murder of Rigdon;
Henry Gambrill, convicted last Friday of blowing out the brains of policeman Benton, just nine weeks since, is a strippling, scarce twenty-one years of age. Tall, slim, pale his countenance denoting dissipation, and his air that of a loose, disorderly youth. He looks reflective and troubled. This boy, Gambrill, kept a drinking saloon, and has cohabited with a loose woman for the last two years. He is the son of a respectable tradesman, has brothers and sistors, one of great beauty, just has brothers and sistors, one of great beauty, just married. Upon our arrival, the the United States. Upon our arrival, the English and French Ministers immediately entered their protest. The British screw frigate, sent out with the Minister, Lord Stratford de Redclitte, a few days previous, had been detained in the Dardauglles, and refused permission to come up to the Sublime Porte, so that a dispatch-boat had to be sent down for the Minister. They now ask, why we are allowed and they refused?

Next morning a fireman was sent to the ship, and a large party took advantage of it to go through the Seraglio, and all places of interest.—
It was in one of the rooms of the Seraglio that Capt. Barran received such a gross insult from one of the Sultan's household. While waiting for the numerous party to some up, he took a sent on the numerous party to come up, he took a seat on one of the divans, when, much to his surprise, he was rudely seized by the arm and dragged off.— He was, of course, very indignant, but acted in the most dignined manner. It was afterward explained to the unimannered Turk that it was the Captain or the American frigate he had laid his hands on, and that his head was in danger, as the tential was there by express invitation of the cands on, and that his head was in danger, as the Captain was there by express invitation of the Sultan. This caused quite a change, and he was more humble in his apology when enlightened than rude when ignorant. I believe the Captain has, with much humanity, dropped the affair.

The Democratic association of the second district, composed of the second and third wards. will hold a meeting at Denhart's, on the corner of First and Jofferson streets, next Saturday evening. at ? o'clock. The leading object of the meeting is to appoint delegates to the 5th of January convention, to nominate candidates for the State offices in August 1959. Let there be a general attendance. The two wards cast 526 votes for Revill, and under the Mason rule, will be entitled to 5 votes in the convention. Every Democrat in the district can be sent to the convention, but only live of their votes will be counted.

The Presidency in 1860-Wm. H. Seward. The result of the recent elections has set Mr Seward to thinking very seriously about the canvas in 1860, for the Presidency. He has made up his mind that neither Donglas nor any one else shall profit by the Northern view of the Kansas are literally true. question which sprang up in Congress last win ter. He made first rate use of Senator Critten den, as well as others, in putting him forward upon the Northern side of this question, and thereby killed this gentleman very effectually, though leaving his lifeless corpse for future use, in the room for dissecting presidental aspirants. As Douglas was not killed as effectually as Crittenden, it now becomes necessary for Seward to

Seward has surveyed the field gone over by the recent State elections. It is plain to him that the Kansas question has divided the North against the South. This he believed would be done when the question arose, but until all doubt was removed, he put forward certain tools upor whom the responsibility might rest if the move ment fai d-knowing, at the same time, that he could dispose of all the tools not made way with by the question itself, if it should be crowned with the success he desired.

Ilis plan has succeeded as well as he could have wished. With the exception of Indiana and California, it is perfect. Of the 15 States that have voted, 18 are Northern, and live Southern. These 13 Northern States have voted pretty much as he wanted them, and so have the 5 Southern States The Northern division of the country has take his view of the Kansas question, and the Sonthern the opposite.

are Southern, and 3 Northern. If these go as have the 16 Northern Stales for him in 1860, and the 15 Southern against him. As the electora cellege consists of 1.05 voters, of whom 176 are ern, and 120 Southern, such a division would be his triamph by a majority of 56. He could, therefore, lose Indiana with her 13 votes, and California with her four, and yet get into the Presidential chair by a majority of 42-enough to lose either one of the largest States in the Union and, indeed, one of them with another of meding

Hence Seward has mounted the stump and taker his position. He is now for war to the knife with Douglas or any other aspirant for Presidentia nonors. The understandings of last winter and the nice little caucuses, have done their work .-Seward thinks the North and the South are divided, as he wants them, upon the slavery question; and he don't intend they shall come together again if he can help it. He intends to be President in 1560, if the Union is desolved thereby.

We think, however, that Seward has rather overshot the mark. He has presumed too much upon the power of the Kansas question to array the North against the South. He has gone so far as to make an appeal to the Abolitionists in such terms as to disgust the conservative men of the North. He has, morever, indorsed the infamous O. B. Matteson in such terms as to drive from him all honest men. The following extract from his speech at Rome shows what he thinks of Matte-

delity to the cause of human freedom throughout the period of my connection with public affairs. [Cheera.] Your kind response enables me to as-sume this. During all that period Mr. O. B. Mat-teson, your present representative in Congress, ias been intimitely connected with me. I bear is his behalf willingly and gratefully the testimony that at Washington, at all times, and under all circumstances, he has been fuithful. I further testify that he has been able and efficient there. I perform a pleasing duty, moreover, in declaring there, in the presence of his constituents, that all nere, in the presence of his constituents, that always, and under all circumstances, Mr. Matteson rendered me the sympathy, support, and asl of a trusty, reliable, and devoted friend. I go yet further and declare that, being acquainted with the facts and circumstances of the vote of censure which was passed upon him in the House of Representatives it was my consisting at that resentatives, it was my conviction at that time, as it is my conviction now, that that vote was unsustained by any adequate evidence, was unjust and partial, political and partisan, and dictated by the nostlity of the slave interest in retaliation for the vigorous and successful resistance to that inter-est which he had made.

Well, now, if an Abolition indorser of public planderers can be elected President in 1860, then the days of this Union are numbered. Better, far, elect a Southern gentleman who, while he favors slavery in the Southern States, asks no Northern State to partake of it; who neither interferes with free labor In the North, nor will permit interference with slave labor in the South. A Sonthern man, with national views, who will do instice to both the North and the South in interpreting the constitution and executing the laws, is what we want for a President. Southern mer ask nothing but their constitutional rights. They desire no legislation for the South that is not just and they will extend the same to the North. But Sonthern gentlemen will not be friendly to an union that is presided over by one-idea fanatica and plundered by treasury vampires. The South would soon be a fire-eating aristocracy, under such circumstances, and the North a higher-law despotism. There could be no union of the States under Seward's rule.

LOUISVILLE AND FRANKPORT RAILROAD.—We are glad to see that this well managed road is now dolng an unprecedentedly heavy freight business No less than six freight trains are now run daily over the road, and the receipts sum up to a most gratifying figure. We still keep a full supply of the New and Improved Scale of Chickering & Son's Grand, Paulor Grand, and Square Pianos, and as we are Cash Dealers in them, we can sell them unusually low for cash. This is a purely vegetable compound, prepared on sorictly scientific priuciples after the manner of the celebrated Holland Professor, Berhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its traly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTION! The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything clee until you have given Berhave's Holiand Bitters a fair trial. One bottle will couvince how infinitely superintended. for it is to all these imitations.

The Tiger, the new boat for the Mobile trade, which had been at the wharf several days, awaiting a sufficient rise to go over the talls, started out last evening, but as the wind was high the pilot, very prudently, determined to tie he up at Jeffersonville.

It is hoped that, as civilization progresses, pork, as an article of diet, will fall into disuse.
